AGENCY PROFILE

Founded in 1980, InfoMarex Translations is an international translation agency based in Ireland.

The agency maintains a database in excess of 4,784 professional translators and only accepts on its database those translators who are native to the target language into which they work, and who have more than two years of post-graduate professional experience. The agency handled more than 330 projects in 2016 from single-page documents to lengthy legal contracts, from single translator jobs to multiple translators working as project-coordinated teams on the localisation of a single text into multiple languages, or on long texts, with tight deadlines, requiring a team of single-language translators. In 2016, the firm worked in 37 languages.

Among the 64,000 translation agencies in the world, InfoMarex Translations has consistently enjoyed a position among the world's top 12 agencies as recorded by Proz, both as an outsourcer of projects to freelance agents and as holding an unblemished record for prompt translator payment.

The firm as a registered business, under the laws of the Republic of Ireland, does not publish its accounts but is debt free and has a record of paying its creditors on the same day on which any invoice arrives. Infomarex Translations would abhor the revelation of its client list.

Since 1985, InfoMarex Translations has had no need of advertising its services and practically all new clients since that date have come by word of mouth from existing clients. The firm adheres to ISO EN 15038 standards and is generally asked for the translation of accounting, banking, business, finance, legal, localisation, and insurance texts, while providing also a level of *pro bono* work for its supported NGOs and registered charities.
