

Transoft Language Services

The people around the globe are getting interactive than ever due to the ever increasing economy and commerce, and the communication medium has become so swift and accessible. The scope and the opportunity of business have driven people to explore every corner of the world. Hence, they tend to meet and communicate to people of speaking their respective languages, though it is not feasible to learn all of these languages by any individual. So to overcome the language barrier, they required the services of the language expert.

To facilitate these services, Language Service Providers came in to existence. However, the majority of the market is yet unorganized and unstructured. To combat these shortcomings, big corporate, MNC's SME's took initiative, and as a result, we are one of those small entities formed with a vision to provide transparent, high quality and timely fulfillment of the requirements.

About Us

We are a team of young and experienced professionals with a vision to provide comprehensive solutions to the language service requirements. We come with a decade of handy experience and more than 5 years in specialized and allied services. As professionals we have rich experience in various industry segments and verticals, such as, Automobiles, Information Technology, Banking and Finance and Language Service.

While serving the language Serving Industry we realized the customer dissatisfaction on various factors, from the language combination to file formatting, Desire quality input to high pricing. Hence, to meet the customer satisfaction, we need to eradicate these concerns by providing fool-proof solution. Then, our imagination was converted to reality, which is now Transoft Language Services.

Transoft Services is 3 years old, however, established as entity in 2013. We are known to offer best quality output, managing deadlines and giving the cost advantage to the customer. We are proud of our 500 Native Translators, who are dedicated and prioritized workforce. They work with us from different corners of the world, which help us to provide services in more than 60 languages.

Data Entry

Ever increasing volume and management of data is a common issue in a growing firm. The delays due to the processing of data can also impact customer satisfaction leading to a loss of customers, which could have a negative long-term effect on revenues and growth. Plus, the overall data entry costs increase significantly. The handling cost of documents comes to about 6% to 15% of all the revenues of a company. About 85% of all archived documents never leave the filed documents.

Transoft Language Services offers a broad menu of data entry related services. We can enter data from scanned images or physical documents making use of the latest software and hardware technology specifically developed for rapid and accurate data entry.

Transoft Language Services has the expertise in managing the paper and labor involved in moving significant volumes of paper documents and images through an organized and structured conversion process.

The Data Entry division at Transoft Language Services offers the most comprehensive and trusted solution for all the data entry related services. Transoft Language Services provides one of the best solutions in the area of online data entry. We provide online service to regularly update online products, prices, and also to update the database on a regular basis.

We follows 3 levels of data entry to provide high accuracy rates :

In order to guarantee high accuracy and to ensure the quality of the process Transoft Language Services adapts different levels of data entry. The key levels and compare levels varies depending on the requirement for each project.

Single Key

Key - Verify

- Image Processing
- Data Mining
- Data Cleansing
- Insurance Claims
- Market Research
- Credit Card Processing
- Transaction Processing
- Survey Processing
- Litigation Services

Auto Cad Services

CAD Drafting Services (2D and 3D)

- TLS's drafting services produce full-scale, layered and dimensionally accurate CAD files for each original sheet that you submit. Provide us with a PDF, TIF or hardcopy and choose your turnaround time and also choose the CAD type that you want, including: AutoCAD DWG (version 14 thru 2014), Microstation DGN (7, J, 8 V8i, V8XM), or Revit RVT (2011, 2012, 2013, 2014). Additional features include:
 - Fixed Price Per Sheet (Sheet Sizes: A, B, C, D, E)
 - 2D CAD or 3D BIM Modelling
 - 100% Dimensionally Accurate; Full scale 1:1
 - Guaranteed Quality, Accuracy, Schedule and Price

Deliverables Per Sheet

For each converted sheet, you will receive the following:

- CAD Files (DWG, DGN, RVT)
- PDF Exports (Black/White and Color)
- Plot Style Tables (for plotting)

2D and 3D CAD Drafting Services

At TLS, we provide precision paper to CAD services, architectural CAD drafting services, engineering conversions and CAD conversions for residential and commercial projects. We have talented drafting operators who will manually re-draw your paper, PDF or TIF files into CAD. Regardless of the number of sheets of content you submit, we offer the same per sheet fixed price. Choose from engineering, electrical, civil, architectural, construction, mechanical, machine drawings, historical archives, utility plans, plat maps, working drawings, site plans and nearly any other type of document you can imagine.

The types of CAD services we have available include: Microstation drafting CAD services, Auto CAD services and Revit drafting services. Each CAD drawing is precision redrafted manually, so that it will result in a dimensionally accurate, 1:1 full scale CAD file that is AIA layered and ready to use, without the need to scan or vectorize. The resulting files meet rigid quality-control standards as established by TLS. Our Auto-CAD services and Microstation services will provide you with economical solutions for your engineering and architectural CAD-drafting needs. Make your choice from the architectural drafting, CAD service or engineering auto cad services below:

- AutoCAD (by AutoDesk): 14, 2000, 2002, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014
- Bentley Microstation: J, v8, v8XM, v8i
- REVIT Architecture, Structure, MEP: 2011, 2012, 2013, 2014 CAD (DWG, DGN, RVT) files are redrawn as:
 - AIA layering, LITE layering, custom layering or Tri-Services
 - Full scale 1:1

- Paper or model space
- Title blocks, blocks, symbols and hatch patterns
- Dimensionally accurate with associative dimensions

There are numerous benefits to outsourcing your CAD service projects to TLS. Save time and money used to expand and train your staff or upgrading your computer stations.
