- **English:** Native-like proficiency
- **Italian & French:** Can overall understand written texts & pronunciation /Not conversational
- **Dual citizenship:** Argentinian/Spanish

INTERESTS & ARTISTIC SKILLS

I'm really interested in film and Audio Visual creation, production and post-production.

I have had a couple of small roles in short films but I'm not focused on Acting, I prefer writing and being behind the camera.

I've been taking Singing lessons since age 14 and I've been singing a little bit more professionally since 2009. There are a few tracks available on Spotify and right now I'm going through the transition from being part of a musical ensemble to being a solo artist. I have a very strong Rock core but also love Pop and music in general as a whole. I'm currently inclined to the electronic and hip hop scene.

One of my goals regarding this topic is to build my home studio and finish learning how to work with Audio editing software, to start dropping new music and content and to stop depending on professional studios.

I've been writing Flash fiction pieces for over 10 years and I plan to compile my favourite texts in a book this year. I've also had many blogs. I'm currently working on a project in which I will merge a blog about film and music with a podcast.

I love languages and learning about different cultures. I currently work as an English tutor focused on Business and interview prep. I also teach Conversational English.

GOALS & PERSPECTIVE

I'm looking for a position that can be fulfilling, challenging and new in which I can grow career-wise.

I love learning and I'm always looking for ways to expand my knowledge, be it taking courses or studying and researching on my own.

I have a strong passion for helping others and I usually come up with simple practical solutions to complex problems.

I can remain calm in stressful or extreme situations in which thinking and acting fast is key.

I enjoy being constantly challenged, that's the way I can put all my skills and knowledge into practice.

I am naturally reserved but I can adapt to PR situations, I'm a great public speaker and I can be very persuasive, engaging and accomplish goals.

I'm really interested in Leadership and Management positions. I believe I have what it takes to lead a team effectively. I'm constantly looking for trainings related to those areas.

Another area I'm interested in is Career Coaching and NLP. I believe it can be applied to any area and improve or increase results.

These are some of the things I'm interested in and also some of the things that I have to offer.

I'm constantly taking new courses and acquiring new skills every time my schedule is not too busy.

I hope this can become my next challenge!
