Key Achievements

- I have always been interested in politics, economics and the historic effect that major decisions and events have had on the world.
- I chose to study or I am studying International Relations and Development as it considers war and peace, conflict and cooperation, wealth and poverty, power and change and understanding patterns of behavior between the actors in the world from states, to presidents, to corporations.
- In fact, I hope that I would study further more in order to come back and help developing my community with my commitment and hardworking skills.
