Company Profile

# Introduction

The Voiceover Gallery is one of the UK's largest full service voice over agencies with studios in Manchester and London. We are best known for our wide range of English and foreign voice over artists, as well as our integrated services including localisation, subtitling and audio mixing.

We have a friendly and talented team of agents who are vastly experienced in finding the perfect voice and managing all kinds of voice over projects such as TV commercials, web videos, audio guides, radio ads, video games, apps and more. What makes us unique is that we operate professional recording studios and have the infrastructure to handle large scale multi-language projects.

# Our Services

# Brand Values

## Fabulousness

This encompasses the personality of the business and the staff who work here. A vibrant, high energy team who enjoy their work, are always happy to help and will go that extra mile.

## Trust

Our clients can trust us to guide them through the process highlighting any pitfalls or savings and create an end result that pleases everyone. This trust also emanates through the whole business, from management to colleagues where transparency is key to a productive and motivated team.

## We know our shizzle

Every team member is an expert at what they do and as an established business of 11 years, we know the industry, the craft and the key players which essentially enables us to be the best at what we do.

## Collaboration

We are more than just a service provider, we become part of your team with the sole goal of getting the project completed on time, on budget and to the highest quality possible. We work with clients to make this possible by guiding, advising and sharing our expertise as well as negotiating reasonable costs that fit the allocated budget whenever possible.

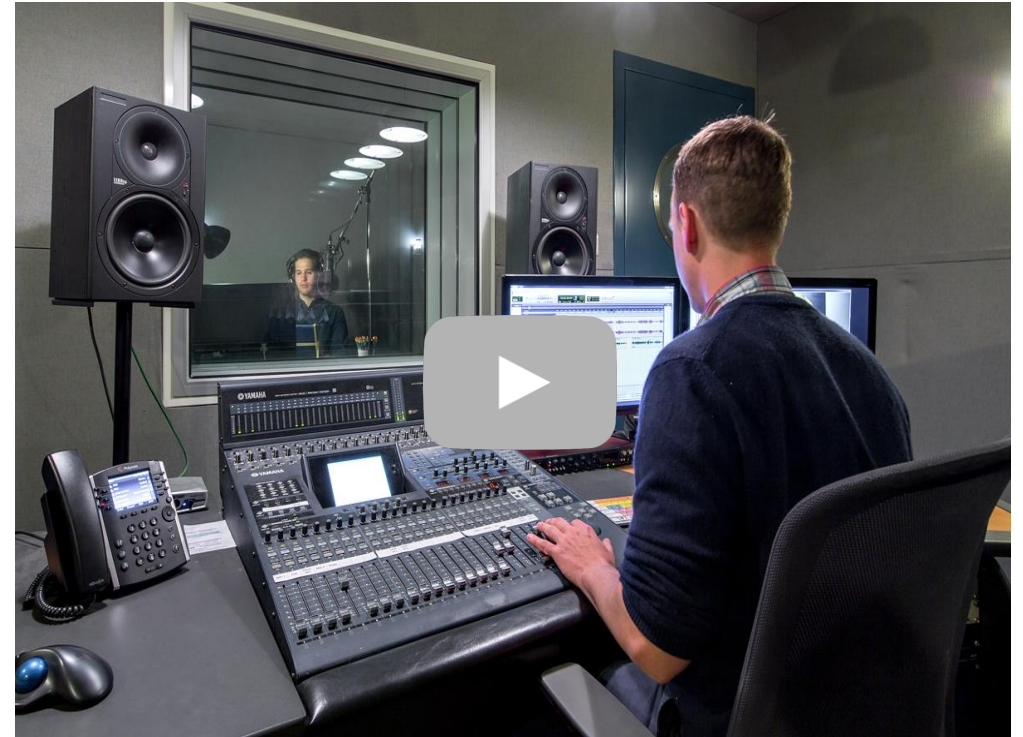

# Professional Studios

The Voiceover Gallery offers client friendly studios in central Manchester and London. Each studio is equipped with the latest technology and software for recording pristine audio.

Our full time sound engineers are experienced in all forms of audio production including audio dubbing, voice to picture, post-production techniques and sound design.

Sessions are engineered using Pro-tools. The studios are equipped with Neumann mics coupled with professionally-installed sound booths seating from one to three voices. As the client you can choose to attend in person in all studios or remotely via ISDN, Skype or phone patch giving you total flexibility. Both our Manchester and London studios have comfortable client areas with Wi-Fi and refreshments.
