

Overview:

Formula F Ltd. (123translate.me) is a translation and localization agency since 1999 and is certified to provide services at the highest quality through an Integrated ISO 9001:2008 and EN 15038:2006 System for Quality and Translation Services.

We specialize in medical, technical, IT and software, legal, financial, marketing, EU related and other translations, editing, proofreading and interpreting from/ into all European languages by native speakers. We have experience in managing multilingual projects in over 30 languages simultaneously.

Our Project Management team consists of knowledgeable professionals with a broad experience and generalist background, with a hands-on approach and focus on operational excellence. Throughout the years we have been able to test and identify the best professionals in their respective fields and advanced users of CAT software. Now we can offer our clients our joint efforts for a cost effective, highest quality and ethical solution to their needs.
