

TRANSLATIONS AND LOCALIZATION

THE COMPANY

NEON Translations and Localization offers tailor-made language service solutions for an international customer base. The company is based in Tallinn, Estonia, but boasts an efficient network of language specialists as well as subject area experts to serve a common aim – specialist translations. Because your message matters. NEON helps you communicate your message to your clients, be it a corporate marketing slogan or a technical manual. We mainly concentrate on Central and East European as well as Scandinavian languages, but we can also find a solution for any other language.

Due to available new resources our main goal for 2015-2016 is to increase the volume of translation output in:

- **medical and pharmaceutical field,**
- **finance and banking** as well as
- **legal and EU translations.**

WE HAVE

- Experience on local as well as international translation market since 2000;
- Services certified according to the European Translation Standard EN15038 and the Quality Management Standard ISO9001;
- Exploitation of modern translation tools such as Trados and memoQ guarantee consistent industry specific terminology and content;
- Subject area specialists translate or consult to ensure competent translations;
- Native speaker translators guarantee that the message is adapted to the cultural and business context of the target market.

SERVICES

Translation and Localization – technical manuals, instructions, specifications; chemical safety cards; marketing materials; homepages; e-commerce platforms, etc.

Terminology Management – creating and maintenance of industry specific term bases.

Language Quality Assurance – quality control of target texts ie translations.

Proofreading – quality control of source texts ie texts written in mother tongue.

DTP or desktop publishing - your translations will look like the original.
