TRANSLATION PROCESS

STAGE 01

Pre-translation stage where we extract specific terminologies from the project to create uniform and schedule for project timeline.

STAGE 03

Editing/ Proofreading stage followed right after the translation which are collected each day work of translators.

STAGE 05

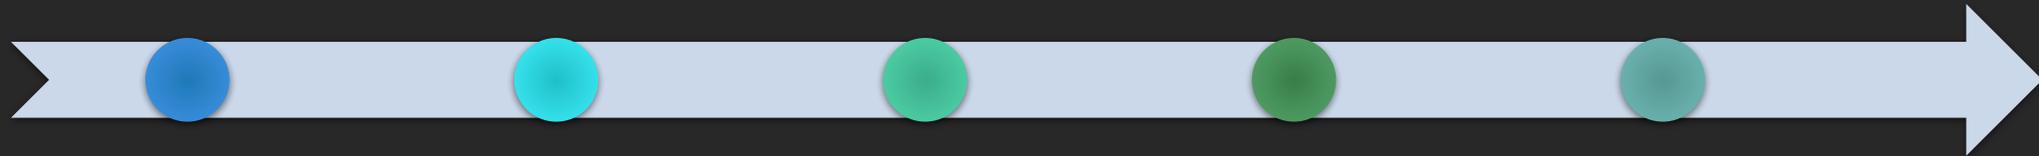

Delivery and Post-delivery stage where we manage to deliver the project with high quality on time and to achieve our goal, total client's satisfaction through our quality and timely delivery.

STAGE 02

Translation stage where we assign the project to translators who are confident and qualified for the project.

STAGE 04

The final stage before delivery where we make sure writing style and terminological translation of the whole project are consistent and it has contextual relevance in the target language.
