HOBBIES AND INTERESTS

I am a language enthusiast. I like reading, being an Hindi native I mostly read English literature. I have also an inclination towards the *kavyas* of Hindu mythology whether it be Mahabharat. I also love writing in my free time.

SUMMARY

I am Aditya Aman and if you are reading this ,it means that in a pool of about 3 billion males of this world, you've somehow come upon my presence☺. I am from Bihar, India.

I am a student, one of the major reasons I can be informal in my resumé, life hasn't kicked me around enough☺. I am pursuing an undergraduate degree with maths as my honours subject. The name of the University won't impress you.

I am a native Hindi speaker and have been speaking English since, well, since I've been speaking. What is that?(about 19 years of experience). I am a native Hindi speaker and have been speaking English since, well, since I've been speaking. What is that?(about 19 years of experience).

I have been working as a Gengo translator since March 2023, but the work opportunities are sparse in my language pair. I have been looking for subsequent opportunities ever since.
