Selective Interests

- I can handle all translating, interpreting, proof reading, subtitling, ... in and from 4 languages Persian(Farsi and Dari) – Kurdish (Surani and Kurmanji) – English – Arabic and in all fields specially in business, accounting, life styles, advertising, internet, computer and IT, politics, science, technology, telecommunication, sport, art, engineering, ...
- I can work with computer easily especially on MS Office.

Note: My mother tongue is Kurdish, but while there is no other way for studying just by Farsi (Persian) in Iran, I am as a native in using Farsi language. My university major was English translation and even I have studied Arabic for 9 years at school. So I can work on all these 4 languages: Kurdish, Farsi, Arabic, and English.
