***SPECIFIC TRANSLATION/INTERPRETING/WRITING EXPERIENCE***

I have vast experience, over 40 years, with high quality teaching, translation/interpreting/writing, English-Portuguese pair of language, online and offline. I can understand and translate very well written Spanish and French.

My expertise is enhanced by God-empowerment. I love to work with biblical material in different languages. I have worked in the English language with IT, Science, and diverse online enterprising and executive positions. I also like both academic and literary language and prize for style.

I have learned to improve communication according to intention and to make speech and teaching pleasant to the hearer but never lacking truth and genuineness. I am presently working on my PhD in Biblical Translation from the Greek Koiné.
