### **2. PROFESSIONAL SUMMARY:**

I have been serving from Graduate Assistant-II to Assistant Professor of Pharmaceutics at Wallaga University, Ethiopia for 10 years.

My core competencies include teaching several pharmacy and health professional courses, conducting experimental and survey researches, providing community services in pharmaceutical sectors.

I have handful experiences of translating documents from English to Amharic and Afan Oromo. So far, I have translated 4 books and 3 researches questionnaires from English to Amharic; 2 books from English to Afan Oromo. I have also translated one dictionary from English to Tigrigna language.

I have also been working in Bio and Emerging Technology Institute as Senior Researcher for the past 4 years on Pharmaceutical biotechnology researches including fermentation production of penicillin G, pharmaceutical grade production of starches from potatoes and sweet potatoes, preparing herbal formulation standardization manual, documenting monograms of Ethiopian medicinal plants, and translating Aflatoxin related documents to local languages (Afan Oromo). I have also given guest lectures at Arba Minch University, Dilla University, Ambo University, Kea-Med College, Care Medical College.

Translation, document typing, proof reading and online tutors of English, Amharic, Afan Oromo, biology, chemistry, and pharmacy courses are my favorite jobs that I want to work. Totally, I have 13 years of teaching, research and publication experiences.
