OBJECTIVE

Would like to set my focus on timber building work. Both residential and apartment buildings. The process of renovations and/or acquiring an understanding of correct, indoor health, system maintenance.

SKILLS

Problem solver with quality first attitude coming from eastern European block. Expensive does not mean good. With great self-awareness to learn like a sponge and eager to improve upon myself

EXPERIENCE

SOLAR PANEL INSTALLER/ HEIDT&URSCHL

2022.5-.9 & 2023.5-.9

Full-time summer job as Solar panel installer in Germany, Baden-Württemberg region. Uneven, Various surface jobs at residential and mostly flat industrial larger-at-scale area projects. Cable lines, satellite, solar panel & fitting, assist electrician in all various charging stations, wall box, convertor, fuse box and other jobs. Warehouse knowledge, tidy attitude, power tools, screws and other fasteners.

EDUCATION

CONSTRUCTION ENGINEERING – THEORY FINISHED

Hamk University of applied sciences

With current thesis focus on solar efficiency research in a specific region. Through studies' the focus was on timber as a material with carpenter's previous knowledge. Adding to renovations being my priority in keeping heritage yet improving living conditions. But not limited to.

VOLUNTEER EXPERIENCE OR LEADERSHIP

More than a year of only living as a volunteer. 9 countries with some notable experiences extending up to almost half a year. Dedicated, hard passionate people in amazing places around the world. A drive to try match and inspire.

Noted jobs not done as professional work and were always under supervision.

Carpentry, landscaping, operating light & heavy machinery, gardening, electrician, plumber, painter, cleaner, maintenance, accounting, computer science, management.

Renovation of Air BnB, Build Container hostels, cinnamon farm maintenance, forest swamp cleaning and rejuvenating.
