Objective:

Highly skilled translator with expertise in machine translation post-editing, technical translation, and marketing/fashion. Experienced in utilizing CAT tools and delivering accurate and culturally appropriate translations. Seeking a translation position to contribute language proficiency and exceptional translation skills.

Recent Work Experience:

Translator
RWS Group
Since 15. Feb. 2023

- Translated a variety of technical materials, including legal, technical, medical, business, marketing, and academic documents.
- Edited and proofread content to ensure error-free output.
- Developed and executed content marketing strategies aligned with the company's goals and objectives.
- Wrote long-form thought leadership and short-form promotional materials.
- Conducted SEO analysis and keyword research to optimize content for search engines.
- Created and managed social media content calendars.
- Collaborated with the design team to develop creative assets for marketing campaigns.
- Analyzed and reported on the effectiveness of marketing campaigns.
- Maintained a fast working pace and delivered work within tight deadlines.

Freelance Translator (Beauty/Fashion)
RWS Group - Motiva
1. May 2023

- Translated a variety of content for Motiva, a beauty brand specializing in implants and promoting beauty.
- Collaborated with the marketing team to ensure accurate and culturally appropriate translations for their Social Media (SoMe) campaign.
- Adapted translations to resonate with the target audience and maintain the brand's voice and style.
- Translated promotional materials, product descriptions, and other marketing content to effectively communicate the brand's message.

Translation Specialist (Machine Translation Post-Editing)
RWS Group - Renault & Philips Consumer Electronics
19. May 2023 (Renault) & 7. Jul. 2023 (Philips)

- Post-edited machine-translated content for renowned companies such as Philips Consumer Electronics and Renault, ensuring accurate, fluent, and culturally appropriate translations.
- Utilized SDL Trados to streamline workflows, maintain consistency, and enhance translation quality.
- Collaborated with a team of translators and proofreaders to ensure linguistic excellence and adherence to project deadlines.

- Translated technical documents, user manuals, and specifications related to the automotive industry for companies such as Renault.

Legalising (subsidiary to Diction)

Legal Translation

6. Jul. 2023

- Undertook legal translation projects, translating legal documents, contracts, agreements, and other legal materials.
- Ensured accuracy and precision in legal terminology and concepts.
- Collaborated with legal professionals to ensure compliance with legal requirements.

Technical Translator

RWS Group - Philips Consumer Electronics

7. Jul. 2023

- Translated technical documents, user manuals, and specifications related to the consumer electronics industry for companies such as Philips Consumer Electronics.
- Conducted extensive research to ensure accurate and industry-specific terminology usage.
- Worked closely with subject matter experts to understand complex technical concepts and deliver precise translations.

Bard Project (Google)

RWS Group - Google

Ongoing Project

- Contributed as a Danish translator in the Bard project, a pioneering AI project at Google.
- Collaborated with a team of language experts and developers to improve machine translation systems.
- Leveraged linguistic expertise to enhance the accuracy and quality of machine-translated content.
- Stayed up-to-date with cutting-edge technologies and advancements in machine translation.

Translation Specialist

LinkedIn Corporation

17. Jul. 2023 - 21. Jul. 2023 (Ongoing Project)

- I have performed comprehensive reviews and translations of various professional documents, articles, and resources from English to Danish for LinkedIn's platform interface, contributing to seamless communication and interaction for international users.
- Operated in a high-pressure, dynamic environment, I have been responsible for translating and proofreading large volumes of content within strict timelines.
- Engaged collaboratively with LinkedIn's global teams to identify and incorporate best practices for translation and localization, leading to significant enhancements in the overall user experience for non-English speakers.
- Conducted thorough quality assurance checks to verify the accuracy and consistency of translations between English and Danish.
- Applied CAT tools to boost efficiency and precision in my translation tasks.
- Utilized my deep understanding of diverse cultural nuances to deliver translations that are not only technically accurate but also culturally sensitive and relatable for Danish users.

Skills:

- Machine Translation Post-Editing
- Technical Translation
- Marketing/Fashion/E-commerce Translation
- SDL Trados and other CAT tools
- Content Marketing Strategy
- SEO Analysis and Keyword Research
- Social Media Management
- Proofreading and Editing
- Time Management

I confirm that I am a Danish native speaker.
