GOAL

With a large skillset in the English and Dutch language I am looking for jobs where I can exercise those skills and where they are required/scarce. I also have years of experience in trading cryptocurrencies and analyzing markets and am looking for work in that scene. I have experience in face-to-face customer service and always treat customers with the utmost of respect.

SKILLSET

Client oriented work is important to me. I have the ability to work under pressure. I like to work in teams but I also don't mind working alone. If something goes wrong or doesn't go as planned, I look for a solution while discussing the issue with the rest.

7 years of cryptocurrency trading and analysis experience.

English and Dutch are two languages I speak and write fluently and without error.

I am in possession of a motorcycle license.

VOLUNTEER WORK

SOUP KITCHEN AUSTRALIA

2009

From my 10th to 14th year of age I lived in Australia with my parents. In that time I spent four months working as a volunteer at a private initiative to provide a shelter and meals for homeless people. Here I helped to clean the place, set up tables and chairs and help with any other simple tasks that needed to be done.

YOUTH ON STAGE AUSTRALIA

2008 - 2010

This was a voluntary project set up by my mother, where youth from across the city could come to play their instruments and form bands. Once every two weeks we organized a concert. At this program I built up and took down drumkits, amplifiers, microphone setups and more. I also helped to make sure everything ran smoothly and there were no issues.
