## 👤 SUMMARY

Hi, I'm Joe Chen (Nian-Cheng, Chen). I'm 22 years old and hold a bachelor's degree in Information Management from Chaoyang University of Technology.

In 2018, I began to voluntarily translate and subtitle English videos. In addition, I often localize public projects, which also helped me gain experience in translation. When translating, I focus on keeping the original meaning and ensuring clarity in the texts.

I acknowledge that there is still room for improvement in my English proficiency, but I am enthusiastic about learning work-related knowledge and improving my language skills continuously in the workplace.
