HEADLINE

Experienced Linguist | Translation and Localization Expert | Conversational AI and NLU Enthusiast | Data Annotation and Labelling Specialist

My name is Rohit Auddy, and I am based in Kolkata. With four years of experience in the IT industry, I possess a diverse skill set. I excel in various areas such as data annotation, data labeling, and data sourcing. I am also proficient in translation, data development, data validation, NLU (Natural Language Understanding), and BOT testing. Furthermore, I hold a diploma in Film Editing and VFX from Hi-Tech Film and Broadcast Academy, allowing me to bring a creative perspective to my work. I have also gained valuable experience in content writing over the course of one year, ensuring that I can produce compelling and well-crafted content. In addition, I have a keen interest in website design and have developed my skills in this field.

As a freelancer, I have successfully managed e-commerce operations for a YouTuber, demonstrating my ability to handle various aspects of e-commerce management. Moreover, I am an expert in the Bengali language, allowing me to provide language-specific services and effectively communicate with Bengali-speaking clients or users. To summarize, my skills include data annotation, data labeling, data sourcing, translation, localization, data development, data validation, NLU, BOT testing, content writing, website designing, e-commerce management, and expertise in the Bengali language.
