INTRODUCTION

I'm a native Brazilian with fluent English skills and a Translation and Interpretation Bachelor student. I'm a professional translator since 2014, having worked on more than 300 translation tasks and 200 subtitling tasks.

I'm detail-oriented and highly organized, and the services I offer are translation, proofreading and subtitling.

My main CAT tool is Trados Studio 2014 and my normal daily output is 2,000 words.

I always focus on long term professional relationships with my clients.

ACADEMIC INSTRUCTION: Translation and Interpretation Bachelor student at Universidade Nove de Julho

EXPERTISE

My areas of expertise are: Arts (music and literature), Electrical and Electronics (general texts) and IT.

My areas of interest are: History, Games, Business, Finance, Law, Marketing and Military field.

METHODOLOGY

I use SDL Trados Studio 2014 and create glossaries and translation memories (TMs) for the projects. In case of non-technical texts, I can translate without CAT tools as well.

For all my projects, I work with a custom database for managing all the stages of the projects, assuring a well-organized and planned workflow.

I use spellchecking and X-Bench checking in order to assure the final quality of the translation. Aiming to keep the attention and quality level, I never work too many hours without some time of resting.

When it comes to understanding the source texts, I can go deep into meaning, researching and studying the subject. I'm always in touch with the client, developing a healthy relationship, essential for the success of any business. Being self-taught for many years before my academic instruction in course, I'm creative when developing solutions to my jobs. Clients may feel free to call me at any time for solving job-related issues.

Studying is my passion.
