

SEOKJIN JI

WORK OBJECTIVES

Fast and efficient translation services, delivery before deadline, always satisfied by customers, reasonable prices

ABOUT ME:

I am a Korean currently living in Yanji City, China and can speak and write Korean perfectly. I have 7 years of experience translating from English to Korean and vice versa. I previously worked in technology development for 5 years, after which I started freelance translation. I have a degree in Electronic Information Engineering, and I'm a skilled translator who can translate corporate, educational, legal, financial, website and game localization, as well as various technical domain topics such as computers, IT and automation. I always maintain a high level of professionalism in my translation work and consistently follow the principles of the translation company.
