RESUME OBJECTIVE

As a translator specializing in English to Burmese/Burmese to English, my career objective is to serve as a linguistic bridge, enabling effective communication between English and Burmese speakers. With a keen eye for detail and a deep understanding of both languages, I strive to provide accurate and contextually relevant translations that maintain the integrity of the original message. By staying updated with industry advancements and embracing new translation technologies, I aim to enhance my efficiency and deliver high-quality translations that meet the diverse needs of clients.

PROFESSIONAL EXPERIENCE

FREELANCE TRANSLATOR

I have extensive experience working as a freelancer on reputable global translation platforms like Propio Language Services, Gengo and Localize Lab.

- **Propio Language Services**

I bring valuable experience as a medical translator from my time at Propio Language Services, where I translated various medical documents, consent forms, and hospital-related materials. With my Biomedical Science degree, I have a solid foundation that allows me to grasp complex medical terminologies and provide precise and clear translations.

Additionally, I specialize in providing post-editing services for documents translated by other professionals. I take pride in my ability to meticulously review and improve texts, ensuring that the final product is polished and professional.

- **Gengo**

I am an experienced translator at Gengo Translations, specializing in a wide range of content including marketing advertisements, pamphlets, and education-related documents. With a remarkable performance score of 8.2 out of 10, I am highly organized and can handle multiple projects simultaneously without compromising accuracy and attention to details. Most Gengo projects have strict deadlines of 3 or 4 hours, which has greatly enhanced my time management skills.

- **Localize Lab**

I am currently collaborating with Localize Lab for IG/Gaming Projects by providing translation and proofreading services. I have extensive experience using CAT tools like Wordbee and Smartcat. My ultimate objective is to establish trust with clients by consistently delivering exceptional and high-quality work.
